Introduction to Digital Photography

This course will teach students how to use the main features of a Digital Camera. To attend this course, you must be able to understand the basics of using a computer – how to save documents, how to use the desktop, control panel, for example. You must be able to use a mouse and a keyboard.

At the end of the course, you will be able to:

- Move your photos into a named folder
- Delete an image from the camera card
- Make an album of your photos
- Re-size and e-mail your photos
- Make a back-up of your pictures on a memory stick
- Use the timer on the camera to take a picture with yourself in
- Edit your photos

All students will need to bring their own camera with memory card and leads to connect up to computer.

You should let us know of any additional support you may require, when booking this course.
