Create a basic website using Serif WebPlus Starter Edition

This course is aimed at those who would like to learn how to register a Domain Name that is right for you and create a basic website of 5 pages using Serif WebPlus Starter Edition. To attend this course you must be familiar with the basics of controlling a computer via the Mouse and Keyboard, the principles of using menus and dialog boxes and saving documents. Some experience of Microsoft Word and/or Microsoft PowerPoint would be an advantage.

At the end of the course, learners will be able to:

- Create and register a Domain Name
- Know what to consider when creating a website
- Use a design template
- Set up a Master Page without the help of a template
- Create a Navigation Bar
- Insert extra pages up to maximum of 5 pages
- Explain what a Search Engine is and does
- How to add information for a Search Engine to the site
- How to publish the website
- Insert and format a shape box
- Insert and format HTML box
- Insert and format an image
- Explain what a Hyperlink does and insert a Hyperlink
- Insert empty picture frame, insert a picture into picture frame and format
- Inserting picture into text in a text box
- Insert picture rollover and a pop-up roll over
- Create another Master Page and use on the website
- Insert Photo Gallery, Google Maps, Animated Marquee, YouTube video, Video and a Sound Clip
- How to access and use Smart Objects
- Use of Google Analytics

Plus lots more.....

You will need to bring a USB stick with you to the course.

You should let us know of any additional support you may require, when booking this course.
